[interactive content: view #1b]
[user has selected a metro area]

view data for a metro area 

Metro index values for:
Washington-Arlington-Alexandria, DC-VA-MD-WV Metro Area

The purpose of this view is to provide a high level snapshot of the selected metro area(s) top level indicators (the indices, if we decide to use them). It provides the entry point for viewing more detailed data. For example, to see all of the growth data, the user might click on that data point to reveal the underlying data.
