[user has selected a metro area and a data category and is exploring a dimension of an indicator]

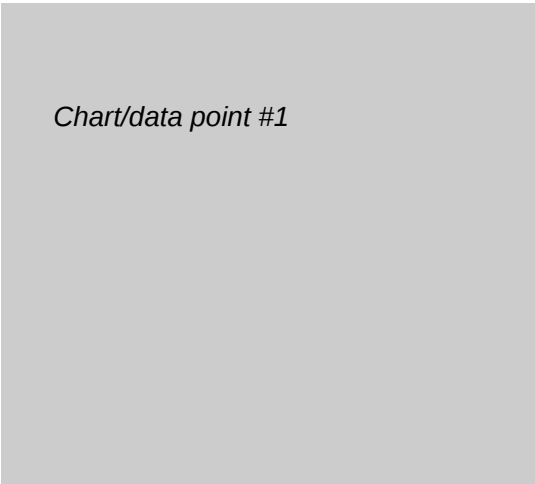

Growth in the:
Washington-Arlington-Alexandria, DC-VA-MD-WV Metro Area

Jobs

What counts as a job?
...

Each indicator will have its own section of the dashboard.
Charts/data points might scroll horizontally within each section
or simply populate the section causing it to expand vertically.

Explore by dimension (e.g.):

Certain indicators have dimensions (i.e. "by-groups," as in "by industry" or "by race." There should be some way to break out the data for an indicator in this way.
